Welcome to MIT Medical

With services that include primary and urgent care, wellness, and mental health, MIT Medical is here to help you stay healthy, safe, and well during your time at MIT. As an MIT student, you can use most of the services at MIT Medical with no out-of-pocket cost — it’s included with tuition. This guide will help you learn about the many services we offer, insurance, and much more.

The information in this guide is correct as of the “last updated” date on the cover, but policies and procedures may change throughout the year. For the latest information, consult our website at medical.mit.edu.
**Visiting MIT Medical during COVID-19**

We have put protocols in place to keep you safe and to minimize the spread of COVID-19. If you plan to have an in-person visit at MIT Medical, here’s what you need to know and do.

- **You’ll need to wear a mask**
  When you enter MIT Medical, pick up a new surgical mask. Masks are available near the doors and elevators. During your visit, keep your mask on at all times, unless otherwise instructed. Massachusetts requires masks in all healthcare settings, including MIT Medical.

- **Sign up for HealthELife, our patient portal.**
  With a HealthELife account, you can request in-person and telehealth appointments, have a video visit with a clinician, and view your test results and medical records.

- **Watch your inbox for the MIT Medical Patient Newsletter, and check our website for updates.**
  We may need to make changes to our policies during the year. If so, we will announce these changes on our website and in our patient newsletter.

**Urgent Care**

It’s an emergency!

Is this a life-threatening emergency? If you’re on campus, dial 617-253-1212. This connects you to the MIT Police, who will get you help immediately. In fact, stop reading for a second, grab your phone, and add 617-253-1212 to your contacts right now. Since there are emergency services available on MIT’s campus 24 hours a day, dialing 617-253-1212 will likely get you the help you need faster if you’re on campus. If you’re off campus and experiencing an emergency, dial 911.

I feel sick. I need to see someone today.

First, call us at 617-253-4481, and tell us exactly what’s going on, with as much detail as possible, so we can make sure you get the care you need. We’ll let you know what to do next. We may have a same-day appointment or telehealth appointment available with one of our primary care providers, or we can schedule an appointment with our Urgent Care Service on the first floor of MIT Medical.

Urgent Care is located on the first floor of E23 and is open every day of the week, except some holidays. If it’s a holiday where the rest of MIT is closed, check medical.mit.edu to see if Urgent Care is open, or if the hours have been changed for that day. To make an appointment with Urgent Care, call 617-253-1311, or visit medical.mit.edu to reserve a place in line.

Who can I talk to if MIT Medical isn’t open?

A clinician is available by phone 24 hours a day. Just dial 617-253-4481 and tell us what’s wrong. We’ll tell you what to do next.

If you’re a student living on campus, you can also seek support and advice from a MedLink, one of our specially trained, peer health advocates living in MIT dorms, fraternities, sororities, and independent living groups, visit medlinks.mit.edu.

**Urgent Care hours:**

Weekdays, 8 a.m.–8 p.m.
Weekends, 10 a.m. – 4 p.m.

(Closed some holidays; see medical.mit.edu for more information.)

**Getting routine care**

Getting healthcare is easier when you have a campus care provider.

If you choose a campus care provider at MIT Medical, you’ll have a clinician who will get to know you and work with you to keep you healthy while you are studying on campus or in the Cambridge area. A campus care provider will provide continuity of care while you are at MIT. When necessary, your campus care provider will work directly with your primary care provider (PCP) back at home, if you have one.

You can choose either a physician or a nurse practitioner as your campus care provider. A nurse practitioner is a registered nurse who has advanced training to diagnose illnesses and prescribe medications.

Visit medical.mit.edu/choose to see a list of campus care providers who are accepting new patients.
How do I make an appointment for routine care at MIT Medical?

Maybe you need a well visit or a vaccine? Perhaps you need to get a prescription, or you have a health concern you want to discuss? It’s easy to make an appointment. If you’ve already chosen a campus care provider at MIT Medical, call their office directly; if not, dial 617-258-9355. Tell us as much as you can about why you are making the appointment. That helps us to determine whether your visit should be in person, via telehealth, or some combination of the two.

Telehealth for routine care

When you call to schedule your appointment with an MIT Medical clinician, we may recommend that you have a telehealth visit using the HealthELife patient portal. Telehealth allows you to visit with your clinician without coming into MIT Medical. During your telehealth visit, the clinician can discuss your symptoms with you and evaluate visible conditions like rashes or minor injuries. They can also prescribe medications or order blood work or tests. In some cases, you may follow up with a clinician later in person for a physical examination.

Well Connection: Another telehealth option for Student Health Insurance Plan (SHIP) members

If you have MIT’s SHIP plan, you have cost-free access to the Well Connection telehealth service, offered through Blue Cross Blue Shield of Massachusetts. Well Connection provides video visits with licensed medical and behavioral health practitioners on your computer or mobile device. Well Connection providers can offer advice, diagnose symptoms, and send prescriptions to your local pharmacy.

Did you know?

Did you know?

If you are an undergraduate and need to be excused from a class or exam because of illness, the process starts with Student Support Services (S³) (5-104; 617-253-4861). You can give S³ permission to speak with MIT Medical about your illness, and an S³ dean will contact professors on your behalf.

Did you know?

If you have questions or concerns about your care at MIT Medical, you can contact MIT Medical’s patient relations coordinator. Just send an email to patientrelations@med.mit.edu. The patient relations coordinator will help you explore possible courses of action to resolve the issue.

Student Mental Health & Counseling Services at MIT

Life at MIT can be fast-paced and demanding. Many students find that it helps to talk with someone about relationship challenges, feeling overwhelmed by school, issues at home, loneliness, anxiety, depression, or other concerns. MIT Medical’s Student Mental Health & Counseling Services can help. You can choose to talk privately with a clinician or, if appropriate, join one of our support or therapy groups.

On weekdays, call us at 617-253-2916. When you call us during weekday hours, we’ll discuss your concerns with you and set up a consultation with a counselor who is a good match for your needs.

Clinicians are on call and available 24 hours a day, seven days a week for urgent consultations. Just call 617-253-2916.
Other MIT Medical Services

Dental Service
MIT Medical’s Dental Service can handle everything from cleanings to crowns. Dental care isn’t included in MIT SHIP coverage, but if you have outside dental insurance (through your parents, for example), you might be able to use that insurance here. To find out if you can use your insurance at the Dental Service or to schedule an appointment, call 617-253-1501. Graduate students who have purchased MIT Graduate Student Dental Plan coverage can also use that coverage at the Dental Service.

Eye Service
The Eye Service is available for eye exams and can also treat students for eye injuries and urgent eye issues. Call the Eye Service at 617-253-9768 to make an appointment. Students who have waived MIT SHIP coverage are not covered for the contact lens service.

Did you know?
You can get discounts on new glasses — even prescription safety glasses — at MIT Optical, right on the first floor of MIT Medical! Visit medical.mit.edu/services/optical to learn more.

MedStop
Coming soon. Located on the first floor of E23, MedStop offers over-the-counter medications for less than you would pay at a retail drug store. You can purchase medications from MedStop in person, or you can browse MedStop’s complete inventory online, order and pay ahead of time, and have your medications ready for pickup.

Sexual health
MIT Medical provides a full range of health services, information, supplies, diagnostic tests, and counseling to address your concerns about sex and sexuality.

Our services include:

• Well visits and other medical services, including the HPV vaccine and prescriptions for contraceptives.
• Free contraception: A limited amount of safer sex supplies are available on the third floor of E23 outside the Community Wellness offices.
• Free, confidential testing for sexually transmitted infections, including HIV. To schedule a test, call 617-253-4481.
• Complete contraceptive care, including birth control pills, IUD, diaphragm, Depo-Provera injection, contraceptive implants, contraceptive patch, or contraceptive vaginal ring, provided by our Obstetrics and Gynecology service, 617-258-9355 or your campus primary care provider.
• Pregnancy tests. Home pregnancy tests are available at MedStop. You can also call us at 617-258-9355 or call your campus care provider to schedule an in-office test.
• Hormonal therapy for transgender students.
• LGBTQ health services.
• Counseling and consultations with providers in Student Mental Health and Counseling.

Self-care at MIT
Community Wellness at MIT Medical provides resources, classes, and programs to help you make healthy choices and get the most out of your time at MIT:

• Virtual wellness classes and video recordings for your mind and body: Yoga, Roll+Restore, Qigong Meditation, Mindfulness, and more
• Acupuncture: MIT Medical provides on-site acupuncture services for students and their family members enrolled in the MIT Student Health Insurance Plan (MIT SHIP)
• Health and wellness coaching groups and resources
• getfit: Join a team, exercise, and win prizes in MIT’s annual fitness challenge
• Step Your Way: An individual fitness challenge held during the fall semester
• MedLinks: peer health volunteers offering listening and support to students
• MIT Sleep and Relaxation Line: 617-253-CALM (2256)
• Downloadable video and audio files for sleep and relaxation: medical.mit.edu/sleep
• Classes and support for new and expecting parents
• MIT Spouses & Partners Connect: a dedicated network for the significant others of MIT students, postdocs, staff and faculty who have relocated to the Boston area
• Language Conversation Exchange: connect with people across the Institute for conversation, cultural exchange, and friendship

And much, much more! We can help you eat healthfully, stay fit, improve your sleep, reduce stress, and improve your overall wellness. For more information send us an email at wellness@med.mit.edu, or visit us online at medical.mit.edu/community.
Violence Prevention and Response

Are you or someone you care about being impacted by sexual violence, relationship abuse, unhealthy relationships, stalking, or sexual or gender-based harassment? VPR offers confidential advocacy services for support, identifying options and resources, navigating campus systems, and more. To make an appointment, email vpradvocate@mit.edu or call 617-253-2300. If you are unable to speak safely in your current situation, you can schedule an appointment to communicate with a VPR counselor by text or chat. For more information about VPR, visit studentlife.mit.edu/vpr.

Privacy

What if I want my parents involved in my healthcare? What if I don’t?

Your visits to MIT Medical and the information you share with our providers are confidential. That means that every part of every visit is kept private. Unless you give us permission, we won’t share any of your health information with your parents, professors, or friends. Exceptions to this policy would be life-threatening situations, or if you are under the age of 18.

If you do want your parents involved in your care at some point, just tell us. Speak with your provider directly, and give them permission to speak with your parents about that specific episode of care. You can only give permission for a specific episode of care — it’s not blanket permission to discuss any of your other visits or medical issues. This permission expires when the specific episode of care is resolved or in six months if the episode of care is ongoing. If you want your parents involved in another, future medical issue, you’ll need to provide permission again.

I’m on my parent’s insurance plan. Does this affect the confidentiality of my care?

It might. We don’t send information to your parents about most office visits at MIT Medical. But if you use your parent’s insurance plan for services outside MIT Medical, like filling prescriptions or seeing outside specialists, your parents might get a bill. Even if an outside visit is fully covered by your parents’ insurance, and there is no bill, your parents might still be notified, because the insurance plan might send notices or claim summaries to your home address. Sometimes MIT Medical needs to send private information to you. This will be addressed to you and will go to the address you have on file with us. Unless you have given MIT Medical your campus mailing address, it will go to your home address. If you need to make any changes, be sure to update your address with MIT Medical as soon as possible. Just call us at 617-253-4481.

Do I have access to my health records?

Yes. If you ever need a copy of your medical record, let us know. We can also provide copies of certain parts of your record — for example, just your immunization record if you need it for international travel. To get a copy of your whole medical record or just specific information from your record, you’ll need to fill out and sign an authorization form. You’ll need to fill out a different form to have your medical record sent from another provider to MIT. All of these forms are available for download at medical.mit.edu/medicalrecord.

Using insurance at MIT Medical

What is included with tuition?

Many MIT Medical services are included with tuition. You can use the following services with no out-of-pocket cost:

- Primary care
- Specialty care
- Urgent care
- Student Mental Health and Counseling Services
- Basic X-rays and certain laboratory tests

We can care for many of your medical needs on campus, and visits to most specialists at MIT Medical are also covered by your tuition. This coverage is not the same thing as an insurance policy.

What if I need to see a specialist outside of MIT Medical?

If you need care outside MIT Medical or if your MIT Medical clinician recommends an outside specialist or facility, that visit will be billed to your comprehensive insurance plan.
If you’ve purchased comprehensive coverage through the MIT Student Health Insurance Plan (MIT SHIP), you’re covered for specialist and other medical visits outside MIT Medical, as well as prescriptions. If you have comprehensive insurance through another insurance company, it will be up to you to find out if the specialist you want to see is part of your insurance company’s network. And you’ll need to make sure your insurance will cover the visit. Check to see if you need a referral from your doctor at home or are required to get authorization from the insurance company before your visit.

Keep your insurance ID card with you at all times. If you have MIT SHIP, you can download your insurance card to your smartphone.

How does MIT SHIP work?

MIT SHIP complements the coverage provided by your tuition and meets Massachusetts requirements for comprehensive coverage. It adds coverage for prescription drugs and off-campus services such as emergency room visits, surgical procedures, ambulance rides, and inpatient hospital stays. SHIP also covers you when you’re studying or traveling outside of the Cambridge area.

If you have MIT SHIP, you may also enroll your eligible family members.

Making changes to MIT SHIP coverage

There are times you might want to modify your coverage. These times are called “qualifying life events,” and they include:

- Turning 26 and becoming ineligible for your parent’s plan.
- Losing your other health insurance coverage involuntarily.
- Getting married or entering a qualified same-sex partnership.
- Adding a child to your family through birth, legal adoption, or legal guardianship.

For more information, see medical.mit.edu/qualifying-events.

Your medical benefits (Summary of Benefits and Coverage)

The Patient Protection and Affordable Care Act (ACA) requires all insurance plans to provide you with a Summary of Benefits and Coverage (SBC) document. This document lists many, but not all, of the benefits that come with your health insurance plan.

Selected information from the Student Health Insurance Plan (MIT SHIP) SBC is on the following pages. To view the entire SBC, and to download the Benefit Description, the comprehensive list of all your benefits, visit medical.mit.edu/forms-documents/students.
**Deductible**

A **deductible** is the total amount of your own money that you must pay for certain covered services each plan year (September 1–August 31, for MIT SHIP) before your health plan begins paying for these services. MIT SHIP has **two different deductibles**:

1. For **in-network services**: $100 per individual per calendar year for outpatient services received outside of MIT Medical (except for mental health care, which has no deductible).
2. For **out-of-network services**: $500 per individual per calendar year for all services except emergency care.

**Out-of-pocket limit**

The **out-of-pocket limit** is the maximum amount of money you will have to pay for your covered healthcare costs each plan year (September 1–August 31, for MIT SHIP), not counting your plan’s premiums. When you have spent that amount of your own money, the insurance plan will cover additional healthcare services in full for the rest of that year of coverage. But remember that if you use out-of-network services, you may still need to pay the difference between the amount of money your insurance company agreed to pay for a service and the actual charge.

MIT SHIP has **two different out-of-pocket limits**:

1. For **medical services**: $4,000 per individual per calendar year.
2. For **prescriptions**: $2,000 per individual per calendar year.
In-network provider

An in-network provider is any healthcare provider (physician, hospital, urgent care, or other facility) that belongs to your Blue Cross Blue Shield (BCBS) of Massachusetts PPO (preferred provider organization) network. The network for MIT SHIP is called the “Blue Cross PPO/EPO” network. You will almost always pay less if you use an in-network provider. You can find in-network providers for MIT SHIP on the Blue Cross Blue Shield of Massachusetts website at bluecrossma.com or by calling 1-800-810-BLUE (2583).

Out-of-network provider

An out-of-network provider is any healthcare provider that does not belong to your insurance company’s preferred provider network (the “Blue Cross PPO/EPO” network for MIT SHIP). You can use out-of-network providers, but if you do, you will almost always have to pay more. If an out-of-network provider charges more for a service than your insurance company agrees to pay, you will need to pay the difference, and that payment will not count toward your out-of-pocket limit.

Ask your provider if the services needed are preventive. Then check what your plan will pay for.</td>
</tr>
</tbody>
</table>

Primary care visit

Primary care is what most people think of when they talk about “going to the doctor.” Primary care includes routine well visits or seeing a doctor when you feel sick. You’d also visit a primary care provider if you need regular, ongoing care for a chronic condition like asthma or high blood pressure or if you need routine health screens, like lab tests, or preventive care, like vaccines.

Specialists

Specialists are clinicians who deal with a specific type of medical care. There are many kinds of specialists. For example, a dermatologist is a specialist who treats skin problems. An orthopedist is a specialist who treats patients with bone injuries or diseases. If you see a specialist at MIT Medical, you will probably not have a copay or other out-of-pocket cost. If you visit a specialist outside of MIT Medical, you will likely have to pay part of the cost of the visit. And your insurance may only cover a certain number of visits per year for some types of specialists, like chiropractors.

Preventive services

The Affordable Care Act requires that some services be available at no cost to patients. These services are commonly referred to as preventive services. Some contraceptives are also required to be available at no cost to patients.
### Copay or Copayment

A **copay** or **copayment** is a fixed dollar amount you must pay for a covered healthcare service, usually when you receive the service. Copayments do not count toward your annual deductible.

### Coinsurance

**Coinsurance** is a percentage of the bill for a specific service that you must pay with your own money. The insurance company sets the price they will pay for any service, and your coinsurance percentage is based on this price. If you go to an out-of-network provider who charges more than the price your insurance company has agreed to pay for that service, you may have to pay the coinsurance PLUS the price difference.

### Drugs

Different types of prescription drugs cost different amounts, and are organized into tiers. If a drug is in a higher tier, for instance, tier two or tier three, that drug will cost more than a drug in tier one. Generic drugs tend to cost much less than name-brand drugs.
Hospital stays
With MIT SHIP, you will have to pay $100 as a copay any time you need to stay in the hospital.

Emergency room/Ambulance
With MIT SHIP, emergency room (ER) visits cost $100 per visit. But you don’t need to pay that fee if you are admitted to the hospital after being seen in the ER. MIT SHIP covers emergency medical transportation.

Mental health
You will have no copays or other out-of-pocket costs for visits to MIT Medical’s Student Mental Health & Counseling Services. Those visits are included with tuition. You may have out-of-pocket costs for mental health services that you receive outside of MIT Medical. MIT SHIP includes up to 52 visits per year outside of MIT Medical without a copay.

Pregnancy
With MIT SHIP, if you get your care at MIT Medical during your pregnancy and have your baby at an in-network hospital, your entire cost may be as low as $100 (for the hospitalization) — plus any medications.
